Partner Organization:

This unique **Integrative Expressive Arts Therapy (iEXAT) Professional Certificate Training in 2023-2025** is a practical training program that provides social workers, mental health or helping parties with hands-on experience of the healing power of expressive arts therapy. It integrates the person-centered philosophy, Jungian approach and phenomenological perspective as the main theoretical frameworks for expressive arts therapy and provides in-training clinical practicum and supervision for participants to put their learnings into practice.

It comprises 4 phases with experiential learning, lectures, live demonstrations, incorporated with small group (trio) reflective learning, in-training practicum and supervision, and the process is supported by supervisors who hold the Registered Expressive Arts Therapist (REAT) credential. Those who have completed phase I to phase IV will be awarded iEXAT Professional Certificate.
